Summary

Passionate Software Developer with practical experience in developing full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Recently completed a MERN Stack internship and eager to apply my technical skills and continue growing as a software developer.

Skills

Programming Language

JavaScript (ES6+), TypeScript

Frontend

HTML , CSS , React.js, Next.js ,Tailwind CSS

Backend & Database

Node.js, Express.js, MongoDB , RESTful APIs , JWT Authentication , MySQL

UI Tools

Shadcn UI, Ant Design, Radix UI

Tools:

Git , GitHub , Vercel , Render , Google Gemini, Claude, Antigravity AI , Postman , Thunder Client

Education

M.Sc. (CA &IT) PG

DEPARTMENT OF COMPUTER AND INFORMATION
TECHNOLOGY, PATAN
2022 – 2026 | PATAN

Soft Skills

- Problem Solving
- Teamwork
- Communication
- Quick Learner

Projects

OrganMatch++

Developed a full-stack healthcare application for secure organ donation matching using React.js, Node.js, Express.js, and MongoDB. Implemented role-based authentication, REST APIs, and OTP-based email verification, while building organ matching workflows and medical document validation. Designed dashboards for user and approval management, and integrated Google Gemini AI chatbot, real-time status tracking, and secure file handling with a responsive user interface.

Blog-App

Developed a full-stack engineering blog platform using Next.js, Node.js, Express.js, and MongoDB, allowing users to create, read, and manage technical articles. Implemented secure authentication with JWT, Google OAuth, Bcrypt password hashing, and security measures like Helmet and Rate Limiting. Built a responsive and modern user interface using Tailwind CSS and Framer Motion. Designed scalable RESTful APIs with centralized error handling and efficient data management using MongoDB.

Internship

MERN Stack Developer

Technical Core Engineer

01/01/26 – 30/06/2026 | Ahmedabad

Worked on real-world MERN stack projects under the guidance of a Project Manager, contributing to full-stack development using React.js, Node.js, Express.js, and MongoDB. Developed and integrated RESTful APIs, designed MongoDB databases with CRUD operations, and built responsive user interfaces to enhance user experience. Collaborated with team members following structured development practices and project workflows.
